Framework for Improving Teamwork (FIT)

A 30-day program that enables employees to identify, document and articulate what is necessary for them to do their best work. The program is successful in strengthening teamwork, generating new ideas, raising accountability and overcoming team challenges.

Four ways to advance business outcomes with FIT:

- 1) Raise the bar on existing team performance**
- 2) Overcome team challenges**
- 3) Evaluate/Multi-Rate**
- 4) Innovate**

A non-invasive, business-focused approach to working better together!

Three Steps - Thirty Days

- 1)** Subsequent to a one-hour team launch meeting, the program provides each participant with an opportunity over 27 days, to think and document ideas as a business owner/leader.
- 2)** Clarify and connect participant viewpoints to intended outcomes in business through a 40-minute 1:1 coaching discussion with a certified FIT Facilitator.
- 3)** Deliver within a platform that eases communication and increases cohesion and accountability among team members of multiple generations.
